

**Interarch Building Solutions Limited** commenced its operations in 1983, and has been involved in the high-end metal interior products market in India. Interarch provides solutions, right from metal ceilings, to blinds, metal roofing to pre-engineered buildings.

Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, on-site project management capabilities for the installation and erection of pre-engineered steel buildings. Interarch works in close association with its partners in project development and construction, providing support to critical industrial, commercial and infrastructure projects.

We commenced operations in 1983, with the manufacture and sale of metal suspended ceiling systems (under the brand, "TRAC®"). Subsequently, in 1993, we introduced metal roofing and cladding systems (under the brand, "TRACDEK®"), before commencing supply of complete pre-engineered buildings in 1999.

We have evolved into a turn-key pre-engineered building solutions provider, with integrated facilities for design and engineering, manufacture, and on-site project management capabilities for the installation and erection of pre-engineered buildings supplied by us which enable us to deliver end-to-end solutions to our customers.

## **Milestones**
