Interarch Secures India's Largest-Ever Single PEB Order, in public domain, Worth over Rs 300 Crore

- *Over Rs 300 crore order secured from one of India's most advanced tyre manufacturing facility.*
- *Interarch to engineer, manufacture and erect the complete steel buildings.*

New Delhi, 21st April 2025 – Interarch Building Solutions Limited ([BSE](#)) ([NSE](#)), pioneers of Pre-Engineered Buildings (PEB) has secured the largest-ever single PEB order in the Indian PEB industry, valued at over 300 crore. The plant is being set up for a major tyre manufacturing company based in Gujarat.

The upcoming tyre facility is poised to be one of the most large-scale and technologically advanced in the country. Interarch has been entrusted with the end-to-end execution of the facility; covering design, manufacturing, and on-site installation of the pre-engineered structures.

The upcoming tyre manufacturing facility will have an area of approx. 3,00,000 m² i.e. 3 million Sq. Ft. under one roof. The proposed plant is slated to be completed within FY 25-26. The plant is designed to optimize operational efficiency while meeting the latest sustainability standards. This large-scale project highlights the growing demand for high-quality steel buildings and underscores our commitment to supporting global mobility, industrial development, and infrastructure expansion.

Arvind Nanda, Managing Director, Interarch Building Solutions Limited, said, “We are proud to have secured the largest-ever single PEB order, in public domain, in the Indian PEB industry – a significant milestone that reflects the trust our clients have in Interarch’s engineering excellence, manufacturing and execution capabilities. This project, for one of India’s most advanced tyre manufacturing facility, will involve end-to-end delivery of critical steel infrastructure – from design to on-site installation. It’s a strong endorsement of our four-decade legacy and our commitment to delivering large-scale, complex industrial solutions with precision, speed, and sustainability at the core.

At Interarch, we have always believed in pushing the boundaries of innovation in steel construction. This project reinforces our leadership in the PEB segment and marks another step forward in supporting India’s manufacturing and infrastructure ambitions. As we begin work on this prestigious assignment, our focus remains on delivering world-class quality, on-time execution, and contributing meaningfully to the nation’s industrial growth story”.

With this milestone, Interarch continues to push the boundaries of steel construction, offering faster, more efficient, and sustainable building solutions that meet the dynamic needs of India's industrial growth story.

Interarch Pre- Pre-Engineered Buildings

Interarch Building Solutions Limited commenced its operations in 1983. Today, 40 years later, Interarch is one of the leading turnkey pre-engineered steel construction solution providers in India with integrated facilities for design and engineering, manufacturing, and on-site project management capabilities for the installation and erection of pre-engineered steel buildings.

TRACDEK® Metal Roofing & Cladding Systems

We manufacture world-class pre-engineered roofing and cladding systems designed to meet custom requirements. Our extensive portfolio includes the Hi-Rib Roofing & Cladding System, Klippon Roofing & Cladding System, and SS-2000 Standing Seam Roofing System. Each of these solutions is engineered to provide exceptional performance and durability, ensuring that we meet a wide range of needs with precision and reliability.

Trac® Ceilings

Our TRAC® range of metal ceilings are manufactured from fully recyclable materials and are pre-painted and prefabricated in our factory. The ceiling systems are friendly to handle and will not promote the growth of bacteria and fungi. TRAC® ceilings exhibit excellent corrosion resistance. They can withstand very high humidity (up to 100 %) and are suitable for use in outdoor applications.

Interarch Life: Non-Industrial Buildings

We offer a state-of-the-art solution for non-industrial buildings through our innovative load-bearing wall framing systems, crafted to support lightweight structures. Embracing a hassle-free drywall construction approach, these systems guarantee swift and efficient assembly, simplifying the construction process for our esteemed clients. With a focus on durability and safety, our load-bearing wall framing systems are engineered to be earthquake and termite-proof, providing robust protection for the structure and its occupants.
